SUMMARY

As a seasoned Full Stack Developer, I bring a wealth of experience and a passion for crafting innovative digital solutions that deliver exceptional user experiences. With proficiency in a diverse array of cutting-edge technologies, I am well-versed in both frontend and backend development.

On the frontend, I have a deep understanding of React.js, ensuring the creation of captivating and responsive user interfaces that engage and delight users. I also leverage Next.js to build performant web applications, Redux for state management, and a variety of styling tools to create visually appealing designs.

On the backend, I specialize in Node.js and Express.js, crafting robust and efficient server-side solutions. My proficiency extends to working with NoSQL databases, particularly MongoDB, to ensure seamless data management and retrieval, as well as optimizing API development.

In addition to my JavaScript expertise, I am proficient in Kotlin, enabling me to develop versatile mobile applications. This broader skill set empowers me to design and implement end-to-end solutions that drive business growth and success.

Throughout my career, I have consistently demonstrated my ability to tackle complex challenges, adapt to emerging technologies, and contribute to project success. I'm passionate about staying at the forefront of technological advancements and continuously seeking opportunities to refine my skills.

If you're looking for a Full Stack Developer who can deliver high-quality, efficient, and innovative solutions that meet the demands of today's digital landscape, I'm eager to connect and explore how we can collaborate. Let's turn ideas into reality and drive digital transformation together.

SKILLS

- ExpressMongoDBAPI Development
- Application security
- Responsive Web Design
- Content Creation Tools
- Back-End and Database Skills
- React Developer
- MongoDB
- Node.js
- Express.js
- c/c++/python/JavaScript

EXPERIENCE

Backend Web Developer / Internship - 2nd Life Innging, MRI(NewGen IEDC) 10/2023 - 12/2023

- Developed and maintained web applications using Node.js, React.js, HTML and CSS, JavaScript, MongoDB
- Developed React applications using Redux state management and RESTful APIs.
- I am a seasoned back-end developer proficient in utilizing Node.js and Express for crafting robust REST APIs. My expertise extends to database management, and I actively contribute to front-end development using React.js.

EDUCATION AND TRAINING

B.Tech: Computer Science Engineering(CSE)
Manav Rachna - Faridabad, Haryana 121004

Expected in 06/2025

WEBSITES, PORTFOLIOS, PROFILES
